Details of instruments/facilities in Annexure-1

@CARE has rated the aforesaid Upper Tier II Bonds and the Perpetual Bonds after taking into consideration their increased sensitivity to Yes Bank's Capital Adequacy Ratio (CAR), capital raising ability and profitability during the long tenure of the instruments. The rating factors in the additional risk arising due to the existence of the lock-in clause in hybrid instruments. Any delay in payment of interest/principal (as the case may be) following invocation of the lock-in-clause, would constitute as an event of default as per CARE's definition of default and as such these instruments may exhibit a somewhat sharper migration of the rating compared with conventional subordinated debt instruments.

#CARE has rated the aforesaid Basel III Compliant Tier-I Perpetual Bonds [Additional Tier I Bonds (Basel III)]after taking into consideration its key features as mentioned below:

- The bank has full discretion at all times to cancel coupon payments.
- The coupon is to be paid out of current year profits. However, if the current year's profits are not sufficient, i.e., payment of such coupon is likely to result in losses during the current year, the balance of coupon payment may be made out of reserves representing appropriation of net profits, including statutory reserves and excluding share premium, revaluation reserve, foreign currency translation reserve, investment reserve and reserves created on amalgamation provided the bank meets the minimum regulatory requirements for Common Equity Tier I [CET I], Tier I and Total Capital Ratios and capital buffer frameworks as prescribed by the Reserve Bank of India [RBI].
- The instrument may be written-down upon CET I breaching the pre-specified trigger of 5.5% before March 31, 2019, and 6.125% on and after March 31, 2019, or written-off / converted into common equity shares on occurrence of the trigger event called point of non-viability (PONV). The PONV trigger shall be determined by RBI.

Any delay in payment of interest/principal (as the case may be) due to invocation of any of the features mentioned above would constitute as an event of default as per CARE's definition of default and as such these instruments may exhibit a somewhat sharper migration of the rating compared with other subordinated debt instruments.

Detailed Rationale & Key Rating Drivers

The ratings assigned to various debt instruments of Yes Bank Limited (YBL) have been put on 'credit watch with developing implications' on account of the recent communication from the Reserve Bank of India (RBI) restricting the tenure of the current Managing Director and Chief Executive Officer (MD & CEO) Mr. Rana Kapoor, till January 31, 2019, as against the three year extension approved in June, 2018 by the shareholders. Considering that Mr. Kapoor is a

Press Release

founding director and has been a key management person for the bank since its inception and had played an instrumental role in the bank's growth, identification and selection of the successor for Mr. Kapoor would be critical for the future prospects of the bank.

CARE Ratings has also taken note of the bank's recent meeting of Board of Directors whereby it has appointed a 'Search and Selection Committee' to identify the new MD & CEO for the bank in accordance with the RBI's communication. Further, the bank's Board also decided to make a request to RBI to grant extension to Mr. Kapoor up to minimum April 30, 2019 for finalization of audited accounts for fiscal year ending March, 2019; thereafter subject to RBI approval up to September 30, 2019; in order for the statutory Annual General Meeting (AGM) process to be completed.

Further, the bank also proposed to make appropriate recommendations to RBI regarding appointment of Mr. Rajat Monga (currently Senior Group President) and Mr. Pralay Mondal (currently Senior Group President) as Executive Directors in order to ensure a long term succession plan within the bank.

CARE Ratings would continue to monitor the developments on appointment of the MD & CEO for YBL.

The ratings of various debt instruments of Yes Bank Ltd. (YBL) factors in consistent performance of the bank in terms of profitability, stable asset quality parameters along with an improvement in the funding and liquidity profiles. The ratings continue to factor in YBL's experienced management and the bank's adequate capitalization levels. CARE notes the bank's gradual diversification of advances across corporate and retail segments and increasing share of Current Account Savings Account (CASA) as well as retail deposits. Asset quality, profitability and capital adequacy levels and stability of funding profile are the key rating sensitivities.

Detailed description of the key rating drivers

Key Rating Strengths

Adequate capitalization levels: In FY18 (refers to the period April 1 to March 31), the bank has raised Rs.7,000 crore Tier-II bonds and Rs.5,415 crore of Additional Tier-I bonds which helped in strengthening the capital adequacy of the Bank. The bank is adequately capitalized with a total capital adequacy ratio (CAR) of 18.4% as per Basel III with a Tier I CAR of 13.2% and CET 1 ratio of 9.7% as on March 31, 2018 (FY17: CAR – 17.0%, Tier I CAR - 13.3% and CET 1 – 11.4%). As on June 30, 2018, bank reported CAR of 17.3% with Tier I CAR of 12.8% and CET1 ratio of 9.5%.

Healthy profitability: The bank has maintained good profitability levels over the last decade while scaling up its advances book with Return on Total Assets (ROTA) of above 1.50% over the last six years. Further, the bank's income profile is well-diversified with non-interest income constituting approximately 20% of total income. During FY18, the bank's Net Interest Income grew by around 33% supported by strong growth in advances. However, Net interest margin (net interest income / average total assets) declined marginally from 3.06% in FY17 to 2.94% in FY18. During FY18, the bank reported Profit After Tax (PAT) of Rs.4,225 crore on total income of Rs.25,491 crore as compared to PAT of Rs.3,330 crore on total income of Rs.20,581 crore during FY17. However, the bank's Return on Total Assets (RoTA) was 1.61% for FY18 as compared to 1.76% for FY17. This was due to the bank's strategy to acquire higher rated corporates (proportion of RWA to Total Assets improved to 81.7% as on March 2018 from 86.6% as on March 2017. During Q1FY19 (refers to period from April 01 to June 30), the bank reported PAT of Rs.1,260 crore on total income of Rs.8,272 crore.

Comfortable asset quality: There was an increase in absolute amount of Gross NPAs from Rs.2,019 crore at the end of FY17 to Rs.2,627 crore as on March 31, 2018. However the Gross and Net NPA ratios were lower at 1.28% and 0.64% respectively as on March 31, 2018 (March 31, 2017: Gross NPA – 1.52%, Net NPA - 0.81%) on account of lower formation of NPAs as compared to growth of advances. Net NPA to Net-worth ratio was 5.27% as on March 31, 2018 (5.0% as on March 31, 2017). Stressed asset (Net NPAs + Net Standard Restructured Assets + Security Receipts) to net-worth was 13.19% as on March 31, 2018 (11.98% as on March 31, 2017). However, the bank's asset quality remains comfortable relative to other banks. The bank has relatively low exposure to NCLT cases vis-à-vis other public and private sector peers with total exposure of 0.32% of Gross advances to NCLT List 1 and 2 accounts combined as on June 30, 2018.

The bank also disclosed divergence in the NPAs for March 2017 as reported by the bank and as assessed by the RBI. The bank had reported GNPAs of Rs.2,019 crore as against Rs.8,374 crore as assessed by the RBI. However, the Bank's financials as on September 30, 2017 factor in the full impact of divergence. Furthermore, the bank reported that, as on March 2018, of the Rs.6,355 crore of NPAs reported as divergence, Rs.485 crore remain classified as NPAs by March 2018. The bank received payments of Rs.2,434 crore and sold Rs.803 crore of NPAs to Asset Reconstruction Companies (ARCs). The remaining Rs.2,633 crore of loans were upgraded to Standard assets. As on June 30, 2018, the bank reported Gross NPA ratio of 1.31% and Net NPA ratio of 0.59%.

Improvement in funding profile: The proportion of CASA and retail deposits to total deposits has been improving over the past few years. Proportion of CASA and retail deposits was 57.2% as on March 31, 2018 (42% as on March 31, 2014). The ratio declined marginally in FY18 (61.5% as on March 31, 2017), due to strong growth in advances which was funded by bonds and wholesale deposits. CARE expects the proportion of CASA and retail deposits to increase gradually going forward.

Comfortable liquidity profile: The ALM as on March 31, 2018 shows positive cumulative mismatches in the buckets of up to 1 year. There has been an improvement in the liquidity profile as compared to previous years on account of lower reliance on wholesale deposits. Furthermore, the bank maintains excess SLR and also has a liquidity coverage ratio(LCR) of 102% as compared to a regulatory requirement of 90% as on January 1, 2018. Also, bank reported LCR of 101% as on June 30, 2018.

Advances Profile: Corporate book constituted 67.9% of the loan book as on March 31, 2018 (67.7%, as on March 31, 2017) and. The proportion of the retail advances (consumer) was 12.2% of total advances as on March 31, 2018 (9.4% as on March 31, 2017). In FY18, YBL's retail advances nearly doubled to Rs.24,831 crore (Rs.12,471 crore as on March 31, 2017). However, the share of retail advances to total advances did not increase proportionately as the corporate loan book also registered a strong growth of 54%. Business Banking and MSME segments constituted 9.6% and 10.3% of the loan book as on March 31, 2018 (10.5% and 12.3% as on March 31, 2017).

Analytical approach: Standalone

About CARE Ratings:

CARE Ratings commenced operations in April 1993 and over two decades, it has established itself as one of the leading credit rating agencies in India. CARE is registered with the Securities and Exchange Board of India (SEBI) and also

^{**}For detailed Rationale Report and subscription information, please contact us at www.careratings.com

recognized as an External Credit Assessment Institution (ECAI) by the Reserve Bank of India (RBI). CARE Ratings is proud of its rightful place in the Indian capital market built around investor confidence. CARE Ratings provides the entire spectrum of credit rating that helps the corporates to raise capital for their various requirements and assists the investors to form an informed investment decision based on the credit risk and their own risk-return expectations. Our rating and grading service offerings leverage our domain and analytical expertise backed by the methodologies congruent with the international best practices.

Disclaimer

CARE's ratings are opinions on credit quality and are not recommendations to sanction, renew, disburse or recall the concerned bank facilities or to buy, sell or hold any security. CARE has based its ratings/outlooks on information obtained from sources believed by it to be accurate and reliable. CARE does not, however, guarantee the accuracy, adequacy or completeness of any information and is not responsible for any errors or omissions or for the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE have paid a credit rating fee, based on the amount and type of bank facilities/instruments.

In case of partnership/proprietary concerns, the rating /outlook assigned by CARE is based on the capital deployed by the partners/proprietor and the financial strength of the firm at present. The rating/outlook may undergo change in case of withdrawal of capital or the unsecured loans brought in by the partners/proprietor in addition to the financial performance and other relevant factors.
