*Manufacturers may have many manufacturing sites. This list reflects the specific product and manufacturing site that has been evaluated as part of the prequalification process and has been successfully prequalified

** Prequalified products and their associated sites on this list must successfully complete a requalification process, which includes an inspection every 3 years to maintain their prequalification status

*** Prequalified products and the respective manufacturing site must undergo a requalification process every 3 years to maintain prequalification status

Those undergoing requalification, remain listed until found to not meet requirements during requalification

Note: This list contains manufacturing sites that have been found to meet the requirements of the WHO/UNFPA Male Latex Condom: Specification, Prequalification and Guidelines for Procurement, 2010 and ISO 4074 Standard. Any quality control testing should be conducted in accordance with the aforementioned specification and ISO standard
