

Coris Bioconcept joins 3B BlackBio Dx Ltd Group

Gembloux, July 28th 2025

Coris Bioconcept is pleased to announce its acquisition by **3B BlackBio Dx Ltd**, an Indian-based in vitro diagnostics (IVD) company, in partnership with its European subsidiary **TRUPCR® Europe Ltd**. This transaction marks a new chapter in Coris' journey, opening the door to renewed momentum, strategic growth, and promising opportunities for our global network.

Shared vision, complementary expertise

For nearly 30 years, Coris has been a trusted provider of rapid diagnostic solutions, particularly in the field of **antimicrobial resistance (AMR)**. With a global distribution footprint and a strong commitment to innovation, we have earned a reputation for quality, reliability, and responsiveness to emerging diagnostic challenges.

3B BlackBio Dx Ltd brings over 14 years of experience in the development and manufacturing of advanced molecular diagnostics, especially PCR-based assays, under the brands TRUPCR®, TRURAPID®, and TRUNGS®.

This strategic acquisition is grounded in a shared ambition: to accelerate access to **faster, more accurate, and more accessible diagnostic tools** worldwide. By combining Coris' leadership in rapid tests with 3B Blackbio's expertise in molecular diagnostics, we aim to build a **complementary portfolio** that addresses current and future healthcare needs – especially in the ongoing battle against AMR.

Looking ahead, together

Coris will continue to operate from its headquarters in Gembloux, Belgium, with the same committed team, while benefiting from 3B Blackbio's global vision and technological capabilities. This partnership will allow us to:

- Strengthen our R&D and manufacturing capabilities;
- Enhance and diversify our IVD portfolio with innovative diagnostic solutions;
- Expand our market reach by leveraging both companies' networks.

We are confident that this collaboration will create added value for our distributors, partners, and healthcare providers. It sets the stage for **future developments in AMR diagnostics**, while maintaining the high standards of quality and service you have come to expect from Coris.
