URBAN ENVIRO WASTE MANAGEMENT LIMITED

Investor Presentation 2024

SAFE HARBOR

This presentation contains forward looking statements that reflect management’s current views with respect to certain future events and potential financial performance. Forward looking statements are other than statements of historical facts. The words believe, expect, anticipate, intend, estimate, outlook, will, may, continue, should and similar expressions identify forward looking statements.

Forward looking statements include statements regarding objectives, goals, strategies, outlook and growth prospects; future plans, events or performance and potential for future growth; liquidity, capital resources and capital expenditures; economic outlook and industry trends; developments of the Company’s markets; the impact of regulatory initiatives; and the strength of competitors. The forward looking statements in this presentation are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, management’s examination of historical operating trends, data contained in records and other data available from third parties.

Although the Company believes that these assumptions were reasonable when made, these assumptions are inherently subject to significant known and unknown risks, uncertainties, contingencies and other important factors which are difficult or impossible to predict and maybe beyond our control. Such risks, uncertainties, contingencies and other important factors could cause the actual results of the Company or the industry to differ materially from those results expressed or implied in this presentation by such forward looking statements.

The information, opinions and forward looking statements contained in this presentation speak only as at the date of this presentation and are subject to change without notice. The Company and its respective agents, employees or advisors do not intend to, and expressly disclaim any duty, undertaking or obligation to, make or disseminate any supplement, amendment, update or revision to any of the information, opinions or forward looking statements contained in this presentation to reflect any change in events, conditions or circumstances beyond what is required by applicable law or applicable stock exchange rules and regulations.

By viewing this presentation, you acknowledge and agree to be bound by the foregoing limitations and restrictions.

Urban Enviro Waste Management Limited, strive to provide the best-in-class Waste Management Solutions & Municipal Solid Waste (MSW) Management services comprising waste collection, transportation, segregation & disposal services across the country. The company caters to Indian Local Bodies along with providing its services to Residential Areas, Industries, Research Institutes, Power Stations, Government & Semi Government Hospitals and Cantonment Boards to name a few.

Mission

The mission of Urban Enviro is to provide waste management services, protect the environment, and promote recycling in order to ensure a safe and healthy community for current and future generations. To earn the trust and confidence of all stakeholders.

Vision

To become India's leading service & solution provider in solid waste management & recycling. To transform our business from handling waste to utilizing waste as a resource while minimizing - and even eliminating - environmental impact so that both our economy and our environment can thrive.

Our Value

By investing in advanced technologies, you can increase the efficiency of waste management and recycling processes, reduce costs, and minimize environmental impact. This not only enhances the value of your services but also positions your company as a leader in the industry.

SERVICE OFFERINGS

Supplying Manpower:

Providing skilled and trained personnel to ensure the efficient execution of waste management services, including collection, transportation, processing, and maintenance operations

Collection and Transportation:

Ensuring seamless waste management by efficiently collecting and transporting waste to designated facilities using specialized vehicles and trained personnel, maintaining cleanliness and environmental health

Bio-Mining of Legacy Waste:

Providing a reliable, eco-friendly solution for legacy waste management through innovative biomining techniques for material recovery and reuse

Processing:

Minimizing environmental impact with advanced waste processing methods, including sorting, recycling, and composting

Door-to-Door Collection:

Leading the way in residential waste management through seamless, efficient door-to-door garbage collection with key stakeholder collaboration

Road Sweeping/Cleaning:

Ensuring cleaner and safer urban environments through regular, thorough road sweeping with advanced equipment

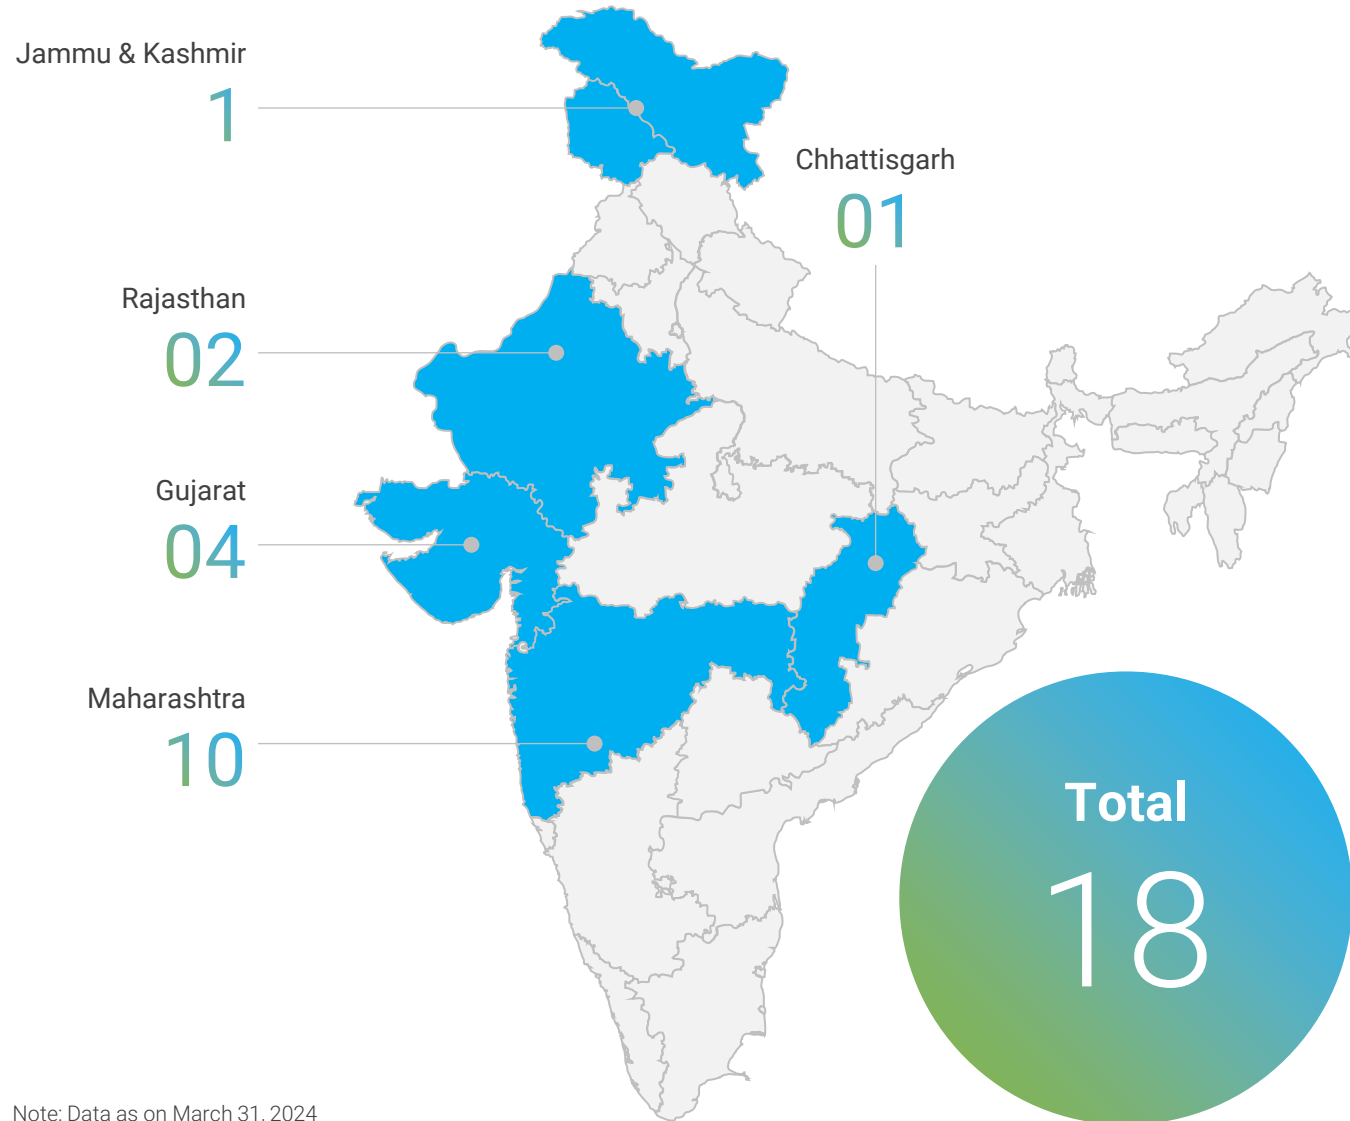

Segregation:

Promoting sustainability by expertly segregating waste into recyclables, organics, and hazardous materials for efficient disposal

Transportation:

Safeguarding environmental health by efficiently transporting waste to designated facilities using specialized vehicles and trained personnel

INDUSTRY ANALYSIS

- The India Waste Management Market size was valued at USD 25.1 billion in 2023, and is expected to reach USD 39.07 billion by 2030, with a CAGR of 6.5% from 2023 to 2030.
- India currently generates 62 million tons of waste (both recyclable and non-recyclable) every year, with an average annual growth rate of 4%. Solid waste, plastic waste and E-waste are the principal waste materials.
- Waste generation in urban areas of India will be 0.7 kg per person per day in 2025
- Only about 23% of the total generated waste is being processed/treated (33,215 tons/day) while 72% is land-filled (1.22 lakh tons/day)

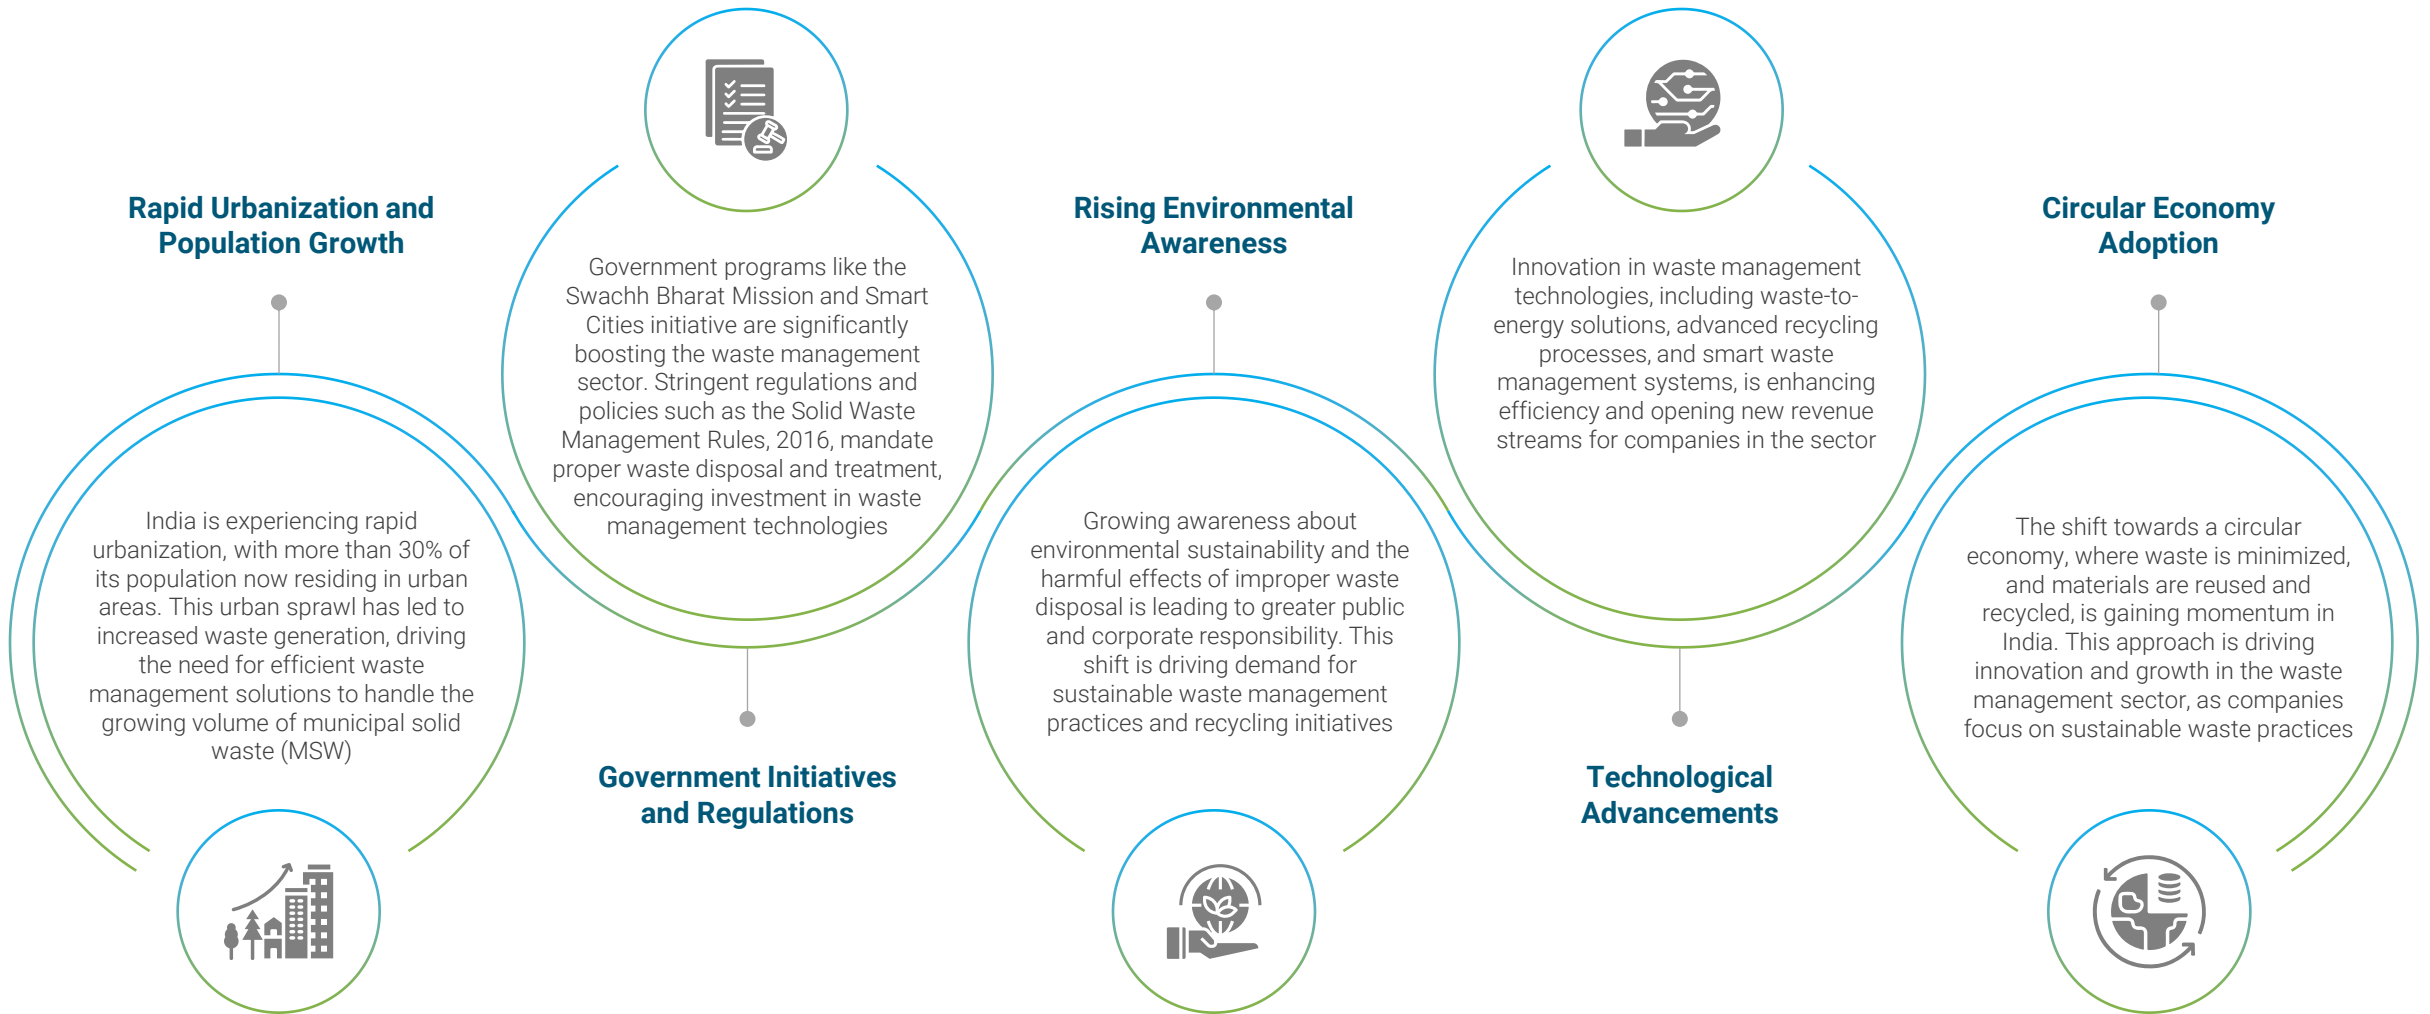

Components of MSW management – different types of waste and where they end up

Note: Construction & demolition and street and household sweeping waste to be managed separately

INDUSTRY GROWTH DRIVERS

COMPETITIVE EDGE

Expertise in Solid Waste Management:

URBAN excels in every aspect of solid waste management, from collection and transportation to segregation and disposal. Our deep understanding of waste management intricacies allows us to design effective strategies that meet the unique challenges of various environments, ensuring regulatory compliance and minimizing environmental impact.

Technological Advancements:

Innovation drives URBAN's operations. We employ cutting-edge technologies and state-of-the-art equipment to optimize our processes. This commitment to technology ensures our solutions are both efficient and environmentally responsible, leading the way in waste reduction, resource conservation, and environmental protection.

Strategic Partnerships:

URBAN's growth is powered by strategic partnerships with municipalities, waste generators, and recycling facilities. These collaborations expand our service offerings, enhance our market presence, and ensure our solutions align with local needs and global best practices, fostering sustainable, long-term relationships.

Diverse Service Portfolio:

URBAN provides a comprehensive range of waste management services tailored to the specific needs of residential, commercial, and industrial clients. Whether addressing urban household waste, complex industrial waste, or customized commercial solutions, our diverse portfolio ensures we meet the demands of a broad client base, solidifying our position as a trusted industry partner.

Proven Track Record:

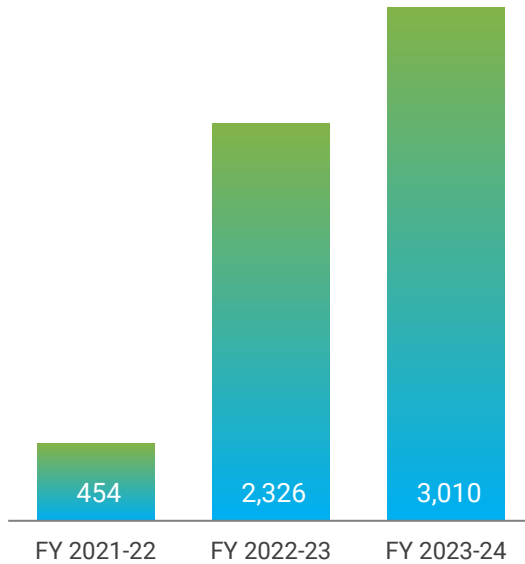

URBAN's extensive experience across diverse sectors has established our reputation for reliability and excellence. Our successful track record, even in challenging environments, underscores our ability to consistently deliver results for municipalities, industries, and commercial enterprises.

Scalable Operations:

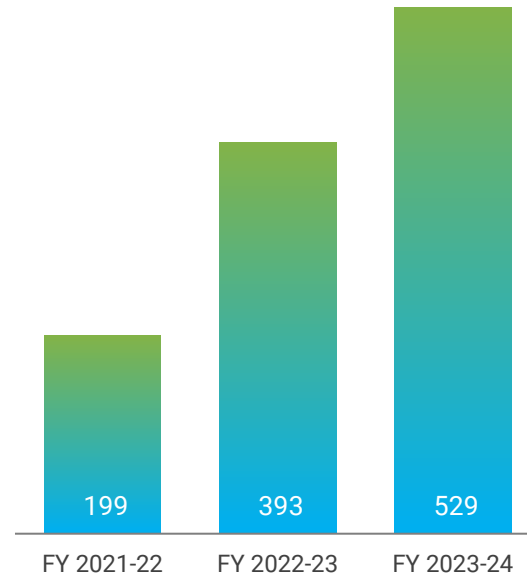

URBAN's scalable operations enable us to manage waste projects of any size, from small residential areas to large industrial complexes. This scalability ensures we can grow with our clients, continually providing exceptional service as their needs evolve.

STRATEGY AHEAD

Expand Our Market Presence

We aim to deepen our footprint in existing markets like Gujarat, Madhya Pradesh, Maharashtra, Jammu & Kashmir, and Rajasthan, while strategically expanding into new states, particularly Tier-2 and Tier-3 cities, to tap into untapped growth opportunities

Leverage Market Expertise and Relationships

We continuously leverage our market expertise and relationships, actively engaging in competitive bidding, and working closely with municipalities and local contacts to identify and secure new project opportunities across India.

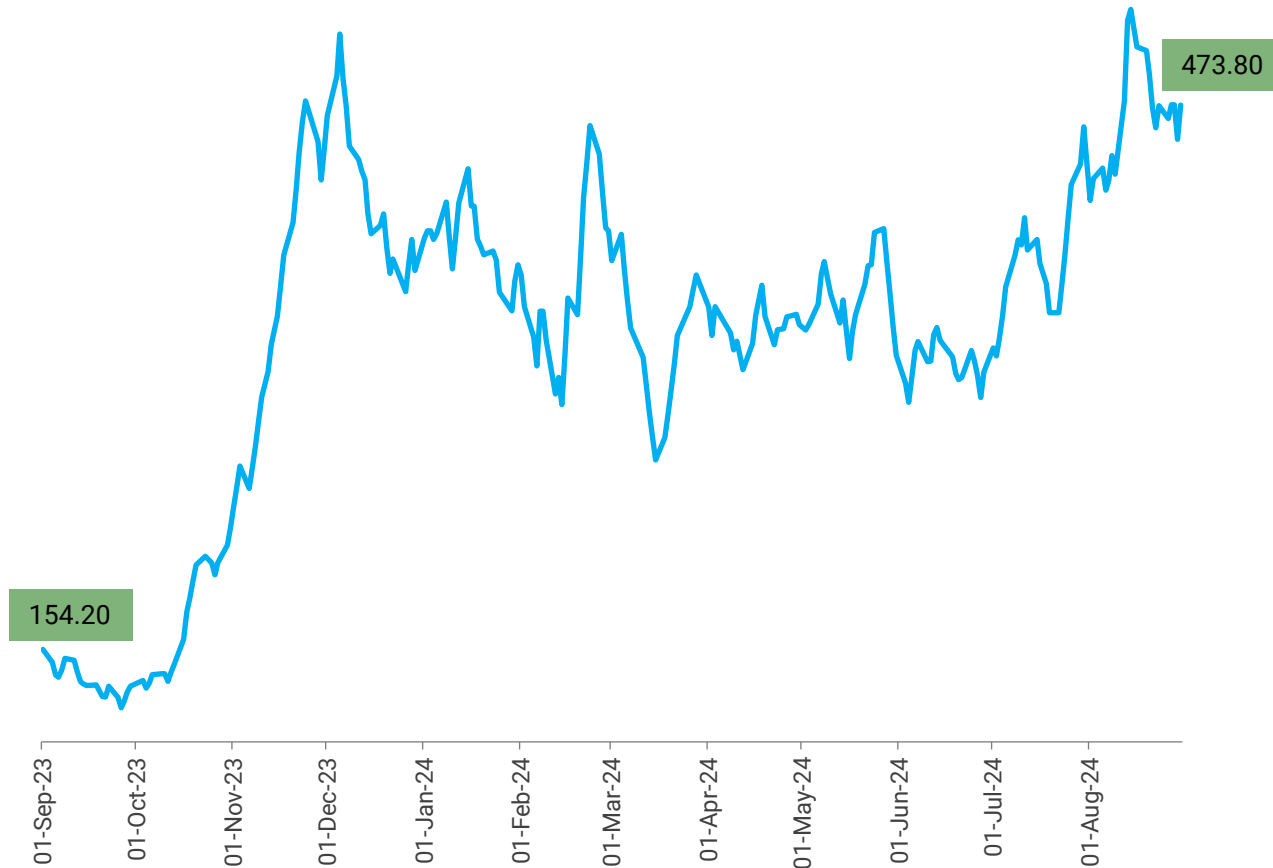

Enhance Operational Efficiency

We focus on improving operational efficiency by investing in advanced vehicles, equipment, and technology, along with robust project management tools. Continuous employee training enhances productivity, boosts morale, and drives better customer service, leading to greater efficiency and retention.
