**Elevation Fintech Report 2023**

A definitive blueprint for \$400Bn value creation by 2030

[bottomline.elevationcapital.com](https://bottomline.elevationcapital.com)

# INTRODUCING THE INAUGURAL VERSION OF THE BOTTOMLINE

**Fintechs have truly come of age in the last decade.** They have made meaningful on-ground impact and captured ~3% share of a large and growing financial services revenue pool in India. This meeting of technology with financial services has both created value at-scale and catalysed the modernization of the entire financial services ecosystem.

With our unique vantage of investing in fintech and financial services over the last 20+ years, we believe that **fintechs are at an inflection point.** There is a perfect storm brewing – our fast-growing digital population, world-class digital public infrastructure (DPI), proactive regulators, and an ecosystem that is engaging with fintechs actively.

In this backdrop, we feel privileged to present the **inaugural version of “The Bottomline”** – our point of view and blueprint on India’s fintech landscape. We present our views across three parts:

- **The Macro View** on the history and future of fintech value creation
- **10 Thematic Deep-dives** that we believe to be the blueprint for this value creation
- **Key Capabilities** to be built by fintechs to capture this value and become enduring enterprises

The report captures Elevation’s deep thesis on the fintech sector, **insights from a comprehensive survey of 70+ industry experts and in-depth conversations with**

**~30 industry leaders** from prominent fintechs and financial services players. In addition, our knowledge partners, McKinsey & Company provided the analytical fact base for the report, leveraging their knowledge of the Indian financial ecosystem.

We believe that fintechs (and tech-led BFSIs) will play an outsized role in India’s ambitious economic and social aspirations over the next decade. **This report captures the Why (Section 1), What (Section 2) and How (Section 3) of that journey.**

Please reach out to us for deeper discussions or if you are building in any of the themes we outline in this report.

Regards,  
**Fintech Team @ Elevation Capital**

# FINTECH'S ROLE ACROSS FS CATEGORIES WILL TAKE **THREE KEY FORMS**

FINTECH ROLE IN A GIVEN CATEGORY

## Shaper

Setting the paradigm, leading in market share

- Products exist, but can be **'10X' better**
- **High-engagement** category: delightful experiences can drive stickiness
- **Fee-based revenue**, limited need for balance sheet management skills

CATEGORY CHARACTERISTICS

ILLUSTRATIVE CATEGORIES

## Attacker

Challenging incumbent share

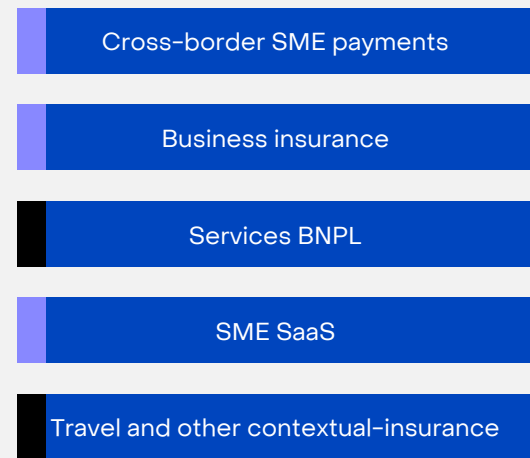

- Consumers **'under-served'** by incumbents
- Need **manufacturing and risk management** skills to exploit gap left by incumbents
- **Large fee + Nil** based value pools

## Catalyst

Creating and expanding new categories of FS

- Consumers often **'un-served'** – typically, not the focus of incumbents
- Need **strong product and go-to-market** capabilities
- Small/**unproven value pools**

# FINTECHS (AND FINTECH-LED BUSINESS MODELS) CAN CREATE \$400BN OF VALUE BY FY30

# 10 KEY THEMES WILL SHAPE THE FUTURE OF FINTECH VALUE CREATION

## Under-served end users...

**1**  **Rise of vertical specialists:** from product-led to segment-led

**2**  The power law: **affluent India** will drive significant value creation

**3**  **Driving access to credit** for the next 200Mn Indians

**4**  Unlocking **India's 'protection and wealth' gap**

## ...served contextually...

**5**  **Embedding contextual financial services** in consumer platforms

**6**  **Rise of open networks:** unlocking the next wave of embedded finance

**7**  Mining the hidden value in the **large and rapidly digitizing supply chains**

## ...by **Fintech X BFSI partnerships**

**8**  **Fintech SaaS** enabling incumbents to deliver next-gen services

**9**  **Collaborate vs. Compete:** deep incumbent & attacker **partnerships**

## Catalyzed by **Digital Public Infrastructure**

**10**  **Digital Public infrastructure (DPI)** to continue disrupting all 4Es
